Alberta Investor Tax Credit (AITC)

Are you an Alberta-based investor looking to provide venture capital to small businesses?

If so, you can apply for a tax credit worth up to 30 per cent of your investment.

The AITC is available to investors who provide capital to Alberta small businesses across sectors doing research, development, or commercialization of new technology, new products or new processes. It is also applicable to businesses engaged in interactive, digital media development, video post-production, digital animation or tourism.

The AITC is accepting applications on a first-come first-served basis. For more information, visit: jobsplan.alberta.ca or email aitc.program@gov.ab.ca

We listened to business leaders' ideas to create the Alberta Jobs Plan. This included implementing new tax credits, providing training for aspiring entrepreneurs, adding supports for established ones, increasing access to capital and cutting the small business tax.

Together, we are creating new jobs, diversifying Alberta's economy and making the lives of Albertans better.
